

Figure out the slideshow

Change background colors from just white

Fix some pictures, columns on small screens

Some images are pixelated

Fix some placeholders

-add padding and margin where it needs to be

- add modal when clicked

-one thing is that it all slides kinda feel the same in format maybe make one layout look different

-website looks great, very professional!

- fix your contact us page, there are broken images

- try formatting the content on the contact us page differently so that it fills out the full page
